THINK PINK
Two-tone lips are all the rage. But instead of painting your top and bottom lip different hues, here's our modern interpretation. Apply a true red lipstick from the outside, moving inwards, leaving the centre of the lips clean. Then with your index finger, dab a fuchsia lipstick onto the centre of the lips, blending outwards. Nude nails with an orange strip makes for a subtle yet fun look.

**HOW TO: GO AU
NATUREL**

Apply bronzers over cream blush to ensure a longer lasting finish. A sculpted face can be achieved by using matte bronzing powder to create depth and shadows. Illuminate skin and highlight the brow bones, cheekbones and even the Cupid bow of the lip with a sheer iridescent powder. Coppery orange tones give a shiny metallic sheen and a glow to the eyes. Soften with lighter metallics such as champagne and blend for a washed effect. Keep brows hydrated and in place all day with a mineral brow gel.
